I want this blood test: **CBC/Profile2** _____ **CBC/Comprehensive** _____ **Outside Lab on** _____

I decline the recommended blood work and request that you proceed with anesthesia. _____ (Initials)

Microchip Implant - We can implant a small chip between the shoulder blades that will help in the safe return of a lost pet. Animal Control agencies and veterinary hospitals scan all lost pets brought through their doors. The cost is \$38.22.

Implant Microchip _____ Decline Microchip _____ Already Microchipped _____

I understand that anesthesia involves risks and hazards in addition to those involved with the recommended surgical, medical or diagnostic procedure. I realize that no guarantee or warranty can be made regarding the results or cure. I will be called at the number above should the doctor find the procedure(s) to be more involved or additional procedures to be required. If I cannot be contacted, I authorize the doctor to perform the necessary procedure. **I understand that full payment is required when the patient is discharged.**
